

Design underway

Below you will find creatively curated 'elixirs' for all types of drinkers. Potions and cacao contain no alcohol, Jun contains 3-4% alcohol. Our seasonal cocktails are made of high-quality spirits, honey instead of sugar, organic botanicals, and lots of love. A little something for everyone....

For more reasons than we can list here, we use raw honey instead of sugar in ALL of our housemade elixirs. As a sweetner, honey offers nutritional benefits, body, and complexity to our drinks. We think it's pretty neat that bees turn sunshine into liquid gold. Thank you, bees!
