

A little something for everyone....

Below you will find creatively curated 'elixirs' for all types of drinkers. Potions and cacao contain no alcohol, Jun contains 3-4% alcohol. Our seasonal cocktails are made of high-quality spirits, honey instead of sugar, organic botanicals, and lots of love.

Why Honey?

For more reasons than we can list here, we use raw honey instead of sugar in ALL of our housemade elixirs. As a sweetener, honey offers nutritional benefits, body, and complexity to our drinks. We think it's pretty neat that bees turn sunshine into liquid gold. Thank you, bees!

Potions (no alcohol)

Intentionally crafted elixirs to elicit a thought, feeling, or idea. The flower and crystal essences are energetic/vibrational ingredients added to support the 'concept'.
